

Tame the cable clutter with the SolidHand-CM01T hook-and-loop tie. The SolidHand-CM01T is a fabric cable tie with a hook-and-loop fastening that lets you gather cables into a single neat bundle in seconds. It works at the desk, in the server room, at the checkout, in the workshop and at home – anywhere loose cables get in the way and spoil the look of the workstation. It ships as a 100 cm roll that you can use whole or cut with scissors into as many shorter ties as you need, matched to the thickness of each bundle. Reusable, no tools required. The tie is hook-and-loop on both sides – it grips itself along its whole length, so it needs no buckles, clips or tools. Simply wrap the bundle and press; undo and refasten as many times as you like. That is a clear advantage over single-use zip ties: nothing has to be cut off and replaced every time the wiring changes. The soft fabric will not damage cable insulation and leaves no marks on cables or furniture. The tie is also very light, so it puts no strain on connectors or hanging cable runs. It is ideal for power cords, network cables, HDMI...

Model	SOLIDHAND-CM01T
EAN	5906935203262
Color	Black
Material	nylon, polypropylene (PP)
Type of fastening	double-sided hook-and-loop, reusable
Roll length	100 cm
Form	roll, cuttable to any length
Application	bundling and organising cables
Package dimensions	7 x 10 x 1,5 cm
Weight	5,5 g
Weight with packaging	6,5 g
